

# Sketching

MICHAEL BERNSTEIN

CS247

# Act I: Critique

# Haiikus

yes we read them all  
they kept us awake all night  
you all are disturbed

**Design thinking**  
**A river of post-its**  
**But I can swim**

Jessie Candido

**Whoa the orgasm  
of well-designed experience  
want to create too**

Aye Kim

Telling the stories  
Of our community  
Through brilliant design

Eric Huang

**Beneath mechanized  
churn: insight, ambition, code,  
grows the earnest heart**

Albert Liang

**When someone saw that  
the world was too cold and dark  
they sparked a long fire**

Mark Orozco

The 'net fans the flame  
Of joy, search, but also hate  
Use powers for good

Adam Franklin

**Intuitive app**

**I want to make fun to use  
like dancing in rain**

Cristian Lara

Every morning  
technology speaks to me  
What do I say back?

Dakin Henderson

**It's not their fault but  
government websites are shit  
We can do better**

Connie Li

**What keeps me from sleep  
It's the things I want to do but can't do  
with my clumsy hands**

Yang Li

Act II:

Needfinding

**Project II is live**

# P2: Needfinding

- Go out! Observe, interpret, How Might We?
- Final deadline two weeks from today
  - Part I, suggested deadline one week from today
  - Part II, final deadline two weeks from today
- Form a team, make a needfinding plan, go out and observe by next Friday!

# Sketching

It's not art.

400  
2000

# You can draw.

Hint: you were five years old once.

# Sketching is for communication

So the user or your design colleagues can understand your concepts

# Begin sketching lecture

We're going full-on Verplank.

This part of lecture will not be in the published slides.
